

## ELIMINATOR

### PAINT & RESIN INDUSTRIAL HAND CLEANER

#### Product Description

SEPTONE® Eliminator is a specialty hand cleaner designed specifically to remove paints, adhesives and other resin-based products which standard industrial strength hand cleaners are unable to remove.

#### Features and Benefits

- It is a petroleum solvent free & has unique blend of biodegradable ester solvents
- Removes paints, adhesives and other resin-based products which standard industrial strength hand cleaners are unable to remove
- Nontoxic & Biodegradable
- Pumice abrasive has been chosen to gently and efficiently clean the skin without being too harsh
- A lanolin derivative also provides natural moisturising and super-fattening to the skin
- It is suitable for the removal of automotive lacquers, enamel and 2pack paints, industrial coatings, marine paints and antifoulings, household paints, varnishes & stains, furniture coating, body fillers, polyester and epoxy resins, silicone sealants, urethane & acrylic sealants and adhesives

#### Directions for use

1. Apply a small amount of product into the hands and rub it thoroughly
2. Allow it to penetrate the pores of the skin and let the pumice gently remove all the ingrained materials
3. Let the product work on the skin, between the fingers and under the nails
4. Rinse off with little water or by simply wiping the hands with a clean absorbent cloth if the water is unavailable

#### Typical Properties

Attributes	Ref. Method	Specifications
